MEDICAL IDENTIFICATION NUMBER FOR CANADA (MINC)

The [medical identification number for Canada \(MINC\)](#) is a unique, lifetime identifier for all individuals who enter the Canadian medical education or practice system. MINC#NIMC is a not-for-profit organization incorporated by the Federation of Medical Regulatory Authorities of Canada and the Medical Council of Canada for the purpose of administering the Medical Identification Number of Canada (MINC) system. The MINC system provides a reliable means of identifying individuals by sharing the MINC number and necessary registration information within the healthcare system for approved purposes. More information regarding MINC and its privacy practices can be found [here](#).

The College utilizes a registrant's MINC# to source verify, electronically, whether registrants are compliant with their continuing competency requirements. Where registrants do not have a MINC, College staff must undertake significant extra manual work to verify a registrant's compliance with their continuing professional development requirements.

In order to facilitate the accurate and reliable identification of physicians and surgeons across Canada, the College will submit necessary registration information (your name, gender, date and country of birth, medical degree information and College account number) to MINC#NIMC.

I accept that my data will be sent to MINC#NIMC for the purposes of being registered in the MINC system
