<p><b>Membership in professional and learned societies</b> CPSNS, CFPC</p>	
<p><b>Professional service and experience</b> CPSNS Supervisor (2022), Dalhousie Faculty of Medicine General Admissions Committee (2024-present)</p>	
<p><b>Areas of special interest</b> Medical systems innovation, challenging patient encounters, medical fitness to drive, medical contraindications to work</p>	
<p><b>Honours, grants and awards</b> Killam Fellowship, George De Benedetti Mount Allison Faculty Association Prize, Bell Family Achievement Scholarship, Goodridge Summer Undergraduate Research Fellowship, E.S. &amp; E.S. &amp; M.E. Weeks Prize</p>	

<p><b>Name</b> Robyn MacQuarrie</p>	<p><b>District # 3</b></p>
<p><b>Degrees, certificates and diplomas</b>          FACOG (Fellow of the American College of Physicians and Surgeons)          FRCSC (Obgyn)          MD (Dalhousie), MASc (Biomedical Engineering), BSc (Honours)</p>	
<p><b>Academic rank and appointments</b>          Assistant Professor, Dalhousie University, Faculty of Medicine (Obstetrics and Gynecology)</p>	
<p><b>Practice</b>          My practice is community based, in Bridgewater. We receive gynecological consultations from a large catchment, from Tantallon to Yarmouth. I practice consultant OBGYN, and provide 1 in 4 call to the community. My practice is primarily gynecological/surgical, with a balance of cancer screening and obstetrics rounding out my position. I have been in this position for 8 years, and prior to this position I served in another community practice for five years. I have also provided locum services for my colleagues around the province when the need arose. I have experience with a wide variety of practice settings.</p>	
<p><b>Membership in professional and learned societies</b>          American Congress of Obstetricians and Gynecologist, Member of Menopause Society, Atlantic Society of Obstetricians and Gynecologists</p>	
<p><b>Professional service and experience</b>          In addition to my clinical practice, I have served in a variety of leadership positions within Nova Scotia. I was the Northern Zone Lead for Women's and Children's for 7 years. I stayed in this position until we were able to secure a full complement of OBGYNs in the Northern Zone, although my practice had moved to the Western Zone. I served as President of Doctors Nova Scotia. I have also served on volunteer boards in the community, particularly focused on meeting the needs of women experiencing intimate partner violence. I have participated in policy change in both abortion care and MAiD services. My experience in several different roles in the health care system is broad and diverse. I also serve as a consultant to DND on their Women's and Diversity health portfolio.</p>	
<p><b>Areas of special interest</b>          I have a particular interest in medical ethics. I completed postgraduate training in ethics at Dalhousie University. In particular I have been trained to apply a feminist ethical framework in all of my work; this requires an analysis of those who may be most vulnerable in any particular environment and seeking to identify stakeholders who are a part of the solution to any problem.</p>	

**Honours, grants and awards**

Dalhousie Department of Surgery Research Grant (10K) 2010
